COMMITTEE ON FINANCE  
WASHINGTON, DC 20510-6200

April 21, 2010

## Via Electronic Transmission

Maggie D. Anderson  
Director  
North Dakota Division of Medical Services  
State of North Dakota  
600 E. Boulevard Avenue  
Bismarck, ND 58505

Dear Director Anderson:

In the United States, the federal and state governments spend roughly \$317 billion every year on the Medicaid program. As Ranking Member of the Senate Committee on Finance, I have an obligation to ensure that taxpayer dollars are appropriately spent on federal health care programs. Like the Medicare program, Medicaid suffers from systemic weaknesses that lead to fraud, waste, and abuse across the program, resulting in higher costs and less health care to those who are in need. The overutilization of prescription drugs, whether through drug abuse or outright fraud, plays a significant role in the rising cost of our healthcare system. The purpose of this letter is to request information regarding certain outliers in North Dakota's Medicaid program and what steps North Dakota takes to monitor rates of utilization.

In recent inquiries, I have asked the U.S. Department of Health and Human Services about physicians prescribing mental health drugs at astonishingly high rates. In addition to these concerns, a recent CNN report detailed the increasing abuse of OxyContin, Roxicodone, and Xanax. Specifically, the report described the role some pain management clinics and physicians play in the black market for these drugs. I write today to better ascertain how high rates of both mental health and pain medication utilization are affecting the Medicaid program, as well as how North Dakota's rates compare to the national rates.

To that end, please provide charts that list of the top ten Medicaid prescribers of the following drugs for the years 2008 and 2009. For each prescriber, please provide his/her prescriber identifier, and the number of prescriptions written per drug per year, and the total amount billed to Medicaid per drug, separated for each year.

- Abilify; ✓
- Geodon; ✓
- Seroquel; ✓
- Zyprexa; ✓

- Risperdal; ✓
- OxyContin; ✓
- Roxicodone; and ✓
- Xanax. ✓

I thank you in advance for your cooperation and request that you provide the requested documents and written responses by no later than May 5, 2010. In your reply, please format information into a chart like the examples provided below. All formal correspondence should be sent electronically in PDF format to [Brian\\_Downey@finance-rep.senate.gov](mailto:Brian_Downey@finance-rep.senate.gov) or via facsimile to (202) 228-2131. Of course should you wish to discuss this matter further, please do not hesitate to contact Christopher Armstrong of my Committee staff at (202) 224-4515.

Sincerely,

Charles E. Grassley  
Ranking Member

Committee on Finance  
Washington DC 20510-6200

Re: North Dakota Medicaid – Top 10 Medicaid Prescribers of Requested Drugs

Honorable Senator Grassley:

North Dakota is providing the enclosed information in response to your request for the top 10 Medicaid prescribers of certain drugs. We hope this information will allow you and the Committee on Finance to analyze nationwide data on mental health and pain medication utilization within the Medicaid program.

North Dakota Medicaid does not have any managed care, so all utilization was through our fee for service program. Physician identifiers are National Provider Identifier (NPI) numbers.

If there are any questions about the data, please contact the North Dakota Medicaid Pharmacy Administrator, Brendan Joyce, at 701-328-4023 or [bjoyce@nd.gov](mailto:bjoyce@nd.gov).

Sincerely,

  
Maggie D. Anderson, Director  
Medical Services Division

BJ/mlt
